

We thank you for your price request and are pleased to present you the following quotation today

7 February 2026

## Administrative details

### Your references

Offer nr. B5144697  
Service PCB proto  
Board name echolight1\_Fabrication\_Gerber

Purchase reference -  
Project reference -  
Article number -

### Invoicing & delivery details

#### Invoice to:

Pietro Sciolla  
Pietro Sciolla  
Corso Giulio Cesare 243  
10155 Turin  
Italy  
39 3921121548  
s343569@studenti.polito.it

#### Delivered to:

-  
Pietro Sciolla  
Corso Giulio Cesare 243  
10155 Turin  
Italy  
39 3921121548

### Technology & options

#### Board definition

|                            |          |                 |          |
|----------------------------|----------|-----------------|----------|
| Number of layers           | 2        | Delivery format | No       |
| PCB width (X)              | 61.14 mm | PCB height (Y)  | 96.67 mm |
| eC-registration compatible | No       |                 |          |

#### Board definition

|                                              |                         |                         |            |
|----------------------------------------------|-------------------------|-------------------------|------------|
| Top soldermask                               | Green                   | Bottom soldermask       | Green      |
| Top legend                                   | White                   | Bottom legend           | White      |
| Surface finish                               | Any lead<br>free finish |                         |            |
| Bare board testing                           | Yes                     |                         |            |
| <b>Board technology</b>                      |                         |                         |            |
| Pattern class                                | 6                       | Drill class             | Drill B    |
| Outer layer trackwidth (OL-TW)               | 0.150 mm                | Hole density            | < 1000/dm2 |
| Outer layer isolation distance (OL-TT-TP-PP) | 0.150 mm                | Holes <= may be reduced | 0.45 mm    |
| Outer layer annular ring (OAR)               | 0.125 mm                |                         |            |

## Material definition

|                         |                         |                            |                  |
|-------------------------|-------------------------|----------------------------|------------------|
| Board thickness         | 1.55 mm                 | Board buildup              | Standard buildup |
| Base material           | FR4IMP                  | Material Tg                | 145-150°C        |
| Outer layer copper foil | 18µm(End-Cu<br>+/-35µm) | Inner layer copper foil    | 0                |
| Extra PTH runs          | 0                       | Extra press cycles         | 0                |
| Reversed buildup        | No                      | Inner layer core thickness | Standard         |

## Advanced options

|                                 |    |                                |    |
|---------------------------------|----|--------------------------------|----|
| Milling                         | No | Peelable mask                  | No |
| Edge connector gold surface mm² | 0  | Edge connector bevelling       | No |
| Copper up to board edge         | No | Plated holes on the board edge | No |
| Carbon contacts                 | No | Viafill                        | No |
| Top heatsink paste              | No | Bottom heatsink paste          | No |
| Specific tolerances             | No | Specific marking               | No |
| Press-fit holes                 | No | Depth routing                  | No |
| Round-edge plating              | No | Chamfered mechanical holes     | No |

## Pricing

### Printed circuits

| Basket nr. | Delivery term  | PCB quantity | Unit price | Transport price | Transport mode | Total price | VAT     | Gross     |
|------------|----------------|--------------|------------|-----------------|----------------|-------------|---------|-----------|
| B5144697   | 3 Working days | 1            | 20.00 EUR  | 3.68 EUR        | Express        | 23.68 EUR   | 22.00 % | 28.89 EUR |

## Validity conditions, lead time and payment terms

This offer is valid for 30 days from the date on the document. It has been prepared in accordance with our terms of sales, available on our website, and accepted by you upon registration of your Eurocircuits online customer account.

The prices and delivery terms listed are based on the information and/or data provided by you. If these change, the final price and terms of delivery may also change.

When ordering this offer, we will check:

- Whether any newly provided information and/or data still corresponds to those that formed the basis of this quotation.
- Your credit status with Eurocircuits.
- Compliance with our [Terms of Sales](#)

Before accepting or rejecting your order.

The lead time of your order starts to run the next working day after receipt of your order, provided it has been accepted by us.

The payment term of our invoices is 30 days invoice date unless there are circumstances or arrangements (credit status or specific agreements) that change this to payment before fulfilment (pre-payment).
